² Rule 92ter was adopted in September 2006 to increase the ability of the Trial Chambers to consider written statements and transcripts of witnesses in lieu of oral testimony where that evidence goes to the acts and conducts of an accused and to enhance the efficiency in trial proceedings. Rule 92ter is designed to facilitate the admission of evidence without going through an examination-in-chief.

³ Please note that this is the time the Prosecution estimates it will need for the witness. This time estimate does not include cross-examination by the accused or possible questions by the Judges. The time allocated for these will be decided by the Trial Chamber.
